TECHNICAL SKILLS

Programming Languages: JavaScript/TypeScript, Python, C#

Technologies & Frameworks: Shopify/Liquid, React /Next.js, HTML/CSS, SASS/SCSS, StoryBook, Tailwind, Bootstrap, Gulp/Webpack/Vite, Zustand, React Hooks, Formik, i18n, Axios, React Query/SWR, CI/CD (basic) / Service Worker, GSAP, Three.js (basic), Shopify Ajax API, Storefront API

Databases: SQL/MySQL/PostgreSQL

Tools: Git/Github/Bitbucket, Shopify CLI, OAuth/JWT, Agile/SCRUM/Kanban, JIRA/Clickup, Swagger/Postman, Figma/Zeplin, ESLint/Prettier

EXPERIENCE

Front-end Developer

Mar. 2023 – Jan. 2024

Student Council of the FICE • Volunteer

Remote

- Developed new features (Next.js + SCSS, later Tailwind), built and optimized UI components, which reduced duplicated code and accelerated new page development.
- Improved SEO by 20% through metadata enhancements, and analysed LightHouse. Refactored and migrated existing styles to Tailwind, reducing CSS overhead and improving project maintainability. Optimized legacy code. Integrated StoryBook, which streamlined testing and reduced bugs in production releases.
- Led a team of 5 developers: designed project architecture, prioritized tasks, and ensured timely delivery. Established effective communication between QA, designers, and backend developers, which minimized delays in the development process.

Tech Stack: React, Next.js (app routing), Node.js, Zustand, MUI, StoryBook, SASS, i18n.

Shopify Front-end Developer

Jan. 2024 – Present

EVDEV • Part time

Remote

- Built e-commerce online stores on the Shopify platform and maintained existing projects. Customized themes based on Figma designs, implemented responsive layouts for desktop, tablet, and mobile, and ensured cross-browser compatibility. Used Liquid, HTML, CSS, JavaScript to implement functional changes.
- Developed custom sections and backend logic, worked with custom apps, modified and integrated third-party apps. Implemented A/B testing to improve conversion rates. Actively worked with Shopify Ajax API and Storefront API. Gained expertise in metafields, metaobjects, menus, and other core Shopify functionality.
- Optimized performance and loading speed: performed audits with Lighthouse and Plerdy, implemented lazy loading, optimized images and videos, which improved Core Web Vitals scores.
- Collaborated with designers, QA, and project managers to deliver pixel-perfect results. Participated in bug fixing and ongoing updates for client projects.
- Created detailed client-facing documentations and guides explaining how to use features — enabling clients to manage their stores independently without developer involvement.

Tech Stack: Shopify, Python (for proxy servers), Apps

EDUCATION

Kyiv Polytechnic University

Bachelor's Degree in Information Systems and Technologies

LANGUAGES

- Ukraine: Native;
- Russian: Fluent;
- English: Intermediate

SOFT SKILLS

- Collaborated effectively within a team of up to 30 members.
- Experienced in team management and customer communication.
- Collaborated closely with the Manual QA and Backend departments.
